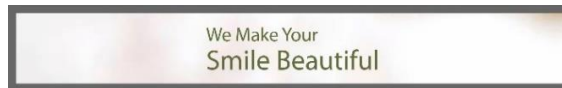

Graphic visible zone: 94 cm x 234 cm

Graphic size : 220 cm x 33 cm

Graphic visible zone : 214 cm x 27 cm

STAND MODULAR

Graphic Measurements

STAND PANELS

The final design must be prepared and sent in **vectorized pdf file** (logos and texts in vector).

Each panel must be: **100 cm wide and 240 cm high.**

Each panel must be sent in real size. **Do not send it with cutting marks, color marks or additional bleed.** Final size of the file: 100 x 240cm.

Prepare the files considering an interior safety margin, within the design of 3 cm (for letters, logos and important images) Since the panel will be installed within an octagonal profile (see example) and they can be cut.

The recommended minimum image quality is 150dpi at real size.
